

dyson airwrap

Curl. Shape. Smooth and hide flyaways.

With no extreme heat.

Create your styles with Enhanced Coanda airflow. New attachments harness Coanda airflow in three unique ways. To create multiple styles, with complete control.

Key Features of Airwrap™ multi-styler (HS05)

NEW Faster¹ and easier¹ styling

Create clockwise and anti-clockwise curls with one barrel to reduce styling time. Rotate the cool tip to switch airflow direction as you style. Creating anticlockwise and clockwise curls with ease.

NEW Multi-functional Coanda smoothing dryer

With two modes: Drying, to quickly rough dry hair in preparation for styling. Smoothing, to smooth and perfect your end style. Enhanced Coanda airflow attracts and lifts longer hairs, hiding flyaways out of sight for a smooth, shiny finish.

NEW Airwrap™ smoothing brushes

Enhanced Coanda airflow attracts and aligns hair to the surface of the brush to shape with increased control.³

Style with air not extreme heat

Enhanced Coanda airflow gives you precision styling without extreme heat damage. Air temperature is monitored over 40 times a second.

Styles and dries simultaneously

Engineered to style hair from damp. Combines powerful airflow with controlled heat, to dry your hair as it styles.

Engineered for different hair types

A range of attachments engineered for different hair types. Quick-release switch and cool-touch tips allow you to quickly change attachments after styling.

Cool shot

To set your style.
